WATER SUPPLY

The Complete Analysis is Given in a Table Below.

WAS RECEIVED YESTERDAY

Mayor Lang Submits a Few Remarks to the Citizens of Paducah.

THE WATER IS PURE

The Sun yesterday stated that Mayor Lang had received the analysis of drinking water from Dr. Kastenbine, of Louisville, who was employed to make it. Mayor Lang submits the following:

To the Citizens of Paducah:

Because of the fact of a few of our citizens, who possessed more zeal than judgment, undermining our city's reputation as being detrimental to the health of any who might chance to pass by, with certain death to any who endeavored to risk existence within its confines, finally winding up with a death blow to progress by attacking the water supply as a disease breeding pestilence, it appeared to be the duty of the city's chief executive to have the water quickly investigated, and if as claimed, announce the danger thereof to the people we are employed to serve.

Having prior to this date caused a like analysis of our water taken when the river was very high and exceedingly muddy, with an approval of its wholesomeness, it was argued by some that the harmful matter therein was in such wide state of dilution because of the great volume of water in the river at that time, an analysis taken after the city had been washed by recent rains, at a time when the water in the river was at its very lowest stage and immediately after the city had been washed by the recent downpour of rains from center to circumference. Every old stagnant alley way had been macerated therein and cleaned by the washing, and the river water was in its highest possible state of concentration of deleterious substances, not only local, but along its entire length, hence, the test just made of water taken from the hydrant in the American Express office, sealed and shipped to a most competent chemist, was at a time when the hardest possible test of the water's fitness for the indiscriminate use of our people could be made, because it is well known that at the season of the year when this water was taken from our water supply it is then that fevers of all kinds flourish most, and if the water should at any time contain typhoid bacilli or germs these would have been in the highest development at that time.

I am pleased to be able to say to you that our water supply is equal in healthfulness to water obtained from any other source.

THE ANALYSIS.

One U. S. wine gallon of 281 cubic inches contains of solids in solution, Grs. 9.92.

Solids in suspension separated by filtration, Grs. 17.80.

Odor, 100, degrees Fahrenheit, none.

Appearance cloudy, yellow from suspended clay and silt.

Color, when filtered and viewed in long cylinder, a very faint straw color.

Free Ammonia, Grs. 0.0008.

Aluminous Ammonia, Grs. 0.0026.

Nitrates, only a trace.

Nitrates, Grs. 0.0227.

Calcium Carbonate, Grs. 5.4800.

Magnesium Carbonate, Grs. 1.9200.

Phosphates, none.

Chlorine, Grs. 0.523.

Organic matter, volatile at red heat, Grs. 1.136.

Mineral matter, non volatile, Grs. 8.784.

The bacteriological examination was confined exclusively to the detection of typhoid bacilli, and after a most exhaustive examination of the nutrient gelatin cultures, for this pathogenic organism not a single germ was detected.

It is this part of the examination that is so tedious and requires so much time.

From the examination it will be seen, apart from the suspended clay and silt in the Paducah water, that this water compares favorably with the water supply, not only of foreign cities, but also of cities of this country.

After rains water is apt to contain suspended matter insoluble washed off from the soil, consisting in the case of the Paducah water of clay and silt.

Of course this mechanically suspended clay and silt will in time

slowly subside by standing, or is rapidly removed by filtration, or precipitated by a coagulate like alum in the proportion of two grains to the gallon, but sewage or soluble organic material is not removed.

"As I stated above, this water is only slightly by the insoluble clay and silt mechanically suspended in it, and when removed is a good water for drinking and ordinary household purposes. Yours truly,

Signed: L. D. KASTENBINE.

A. M. M. D.

To Jas. M. Lang, Mayor, Paducah, Ky.

Very respectfully,

JAS. M. LANG, Mayor.

It is stated on good authority that the analysis of water ordered by members of the board of health from New York has been here since October 28, and that for some reason has never been made public. It states that the water is pure and free from pollution of any kind.

TIE MAGNATES.

Crowd Coming to Paducah Enroute Up Tennessee River.

They Are to Leave Here on the Iverness Early Saturday Morning.

Capt. J. B. Lord and Ed Ayer, of the Ayers-Lord Tie company, Chicago, will arrive in the city Saturday morning with a party of friends en route up the Tennessee river to inspect the tie fields and the battle ground of Waterloo. They will leave here on the company's boat, the Iverness, and will be absent ten days.

The report of Secretary Nelson

showed a total of 115 towns in Kentucky and 58 towns in Tennessee rated during the year, making a total of 173.

Risks to the number of 36,680 were also rated. Last year only 119 towns were rated and only 20,939 risks. All these towns were rated under the old schedule, save Knoxville and Henderson, Tenn., which have been rated under both the new Union Mercantile schedule and Kentucky and Tennessee schedule.

Towns in Kentucky and Tennessee to the number of 120 were mapped during the year, and the maps of 45 towns corrected. Sixty-seven local boards were established or re-established during the year.

The total expense of the secretary's office, including salaries, were \$13,584.84.

Under the head of old business, C. B. Rogers moved that the association declare it to be its sense that all whiskey in bond placed in the graded commission list and in the 25 per cent.

SWALLOW A FALSIFIER

FAMOUS PENNSYLVANIAN COMMITTEE VICTED BY AN M. E. COMMITTEE.

Harrisburg, Pa., Nov. 7.—Dr. Silas C. Swallow was convicted of falsehood by a committee of the Central Pennsylvania Methodist conference and suspended from the ministry until the next annual conference, next March.

The charge against Dr. Swallow was preferred by Rev. Charles V. Hartzel, pastor of the Vine street M. E. church, this city, and grew out of a controversy between Hartzel and Swallow over a publication in the Pennsylvania Methodist, of which Dr. Swallow is editor.

Secretary W. C. Nelson was unanimously re-elected.

The election of seven members of the executive committee was then gone into and the following elected:

A. H. McAtee, E. W. Bentley, J. L. Smith, J. W. Powell, S. B. Kennedy, J. C. Lucas and C. B. Rogers, all of Louisville.

COLORED LAWYER

THE FIRST ADMITTED TO THE BAR HERE.

The first colored lawyer to be admitted to the local bar to do regular practice was sworn in this afternoon on the motion of Attorney John G. Miller.

Ison Townsend, of Louisville, is the name of the lawyer and he studied under Hon. Oscar Turner, of Louisville. He has been in the city for several days, but has not located his office.

WAS ONCE PROMINENT.

Bowling Green, Nov. 7.—Alice Ayres, formerly a member of a prominent Allen county family, succumbed in a cabin here by taking morphine.

BIG FIRE IN AUGUSTA.

Augusta, Ga., Nov. 7.—The Knebeler block, including the opera house, was burned this morning.

A FATAL DUEL.

Marion, Ill., Nov. 7.—Mann Holman and Junior Meredith fought a street duel today with pistols, and both are dying.

REPUBLICANS TO CONTEST.

Lexington, Nov. 7.—There is to be a general Republican contest of Tuesday's election, because of alleged irregularities.

CLOSING ARGUMENTS MADE.

Washington, Nov. 7.—Judge Advocate Lemley made the closing argument in the Schley case this afternoon.

MASQUERADE BALL TONIGHT.

STARTLING FRAUD.

Democratic State Official Said to Have Misappropriated Many Thousand Dollars of Campaign Funds.

A tremendous explosion is expected in Democratic state official circles at Frankfort in a short time. The sensation was devolved some little time ago, but for reasons apparent exposure was deferred until after the election. The affair involves the misappropriation of between \$30,000 and \$40,000 of campaign funds by one of the high officials of the state.

According to reliable reports, the official in question was caught up with through accident, although there had been a suspicion that all was not right for a year or two. He went to New York recently, it seems, and called at the office of a big corporation that does business in Kentucky and asked for campaign funds. He produced a letter purporting to be signed by Gov. Beckham, authorizing him to collect the funds. The corporation gave him ten thousand dollars.

Not long after that another official went to New York and visited the same corporation and solicited campaign funds. He was told that the company had already given ten thousand dollars, and when this statement was questioned, produced the letter from Gov. Beckham authorizing the other man to collect it.

It is reported that he will be prosecuted, but thus far no steps have been taken.

The name of the official will in due time be made public, and there may be other developments in the case equally as startling. He has been living most luxuriously in Frankfort, having two or three suites of rooms and several fine horses.

The Clyde departed for Tennessee river at 7 o'clock last evening with fair business.

The steamer Tennessee is due this evening from Tennessee river.

The City of Clifton is due this evening from Tennessee river.

Business in river circles quiet today.

The Island Queen will remain here until the first of January, when she leaves for New Orleans, where she will engage in the excursion business during the winter.

Dr. Riddell says: "In patients who had lost the sense of smell entirely and even where the hearing has begun to be affected from catarrh, I have had fine results after only a few weeks' use of Stuart's Catarrh Tablets. I can only explain their action on the theory that the cleansing and antiseptic properties of the tablets destroy the catarrhal germs wherever found, because I have found the tablets equally valuable in catarrh of the throat and stomach as in nasal catarrh."

Dr. Estabrook says, "Stuart's Catarrh Tablets are especially useful in nasal catarrh and catarrh of the throat, clearing the membranes of mucus and speedily overcoming the hacking, coughing and expectoration."

Any sufferer from catarrh will find Stuart's Catarrh Tablets will give immediate relief, and being in tablet form and pleasant to the taste, are convenient and always ready for use, as they can be carried in the pocket and used at any time, as they contain no poisonous drugs, but only the cleansing properties of Eucalyptus bark, Guaiacol, blood root and Hydrastis.

All druggists sell the tablets at 50 cents for complete treatment.

NOTES OF THE RAILROADS

A Louisville switchman now in the L. C. hospital here, commonly known as "Casey," created some little excitement near the hospital this morning by attempting to escape and go to town without the permission of the resident physician who is vested with authority to allow such privileges. Casey slipped off thinking that he was unobserved but the man had been expected and he was soon pursued by several of the inmates and the doctor. In running he selected rather a zigzag course and in the chase quite a crowd of women and children were attracted. Some one started the cry that the man was crazy and when Mr. Casey made a sudden turn towards a group of women they snatched up their babies and fled in fright. He was soon captured and bound hand and foot, to a sofa in the reading room as a penalty.

There has been another change in the yard department. The following bulletin was today posted in the yardmaster's department for the benefit of the employees who are ordered to report to Mr. J. J. Dalton as temporary general yardmaster and Mr. E. R. Pierce as assistant general yardmaster.

Mr. Pierce succeeds Mr. W. B. Carnegie who has been transferred to an engine foremanship in the regular yards on the outskirts of the city. The change was effective today. Mr. Pierce has been the foreman at the freight depot and is succeeded by Mr. Mosley. As yet no one has been appointed to succeed night ticket Agent E. N. Staten who resigned to accept a better position in the telegraph department.

The L. C. florist, Mr. Keller, is in the city today overhauling the depot lawn. The lawn will be raised in the center and the fountain enlarged and also raised. The ground will be ploughed up and fertilizer placed to have the ground in the very best condition by the spring. All the old plants have been removed and the lawn will present a very much different appearance after today. The work will require some little time and Mr. Keller will probably be here a week or possibly longer.

The mechanists are preparing to give the biggest ball of the season on Thanksgiving day at the Palmer house. Jones and will furnish the music and the following are the officers elected to have charge. Mr. Jake Höffich, floor manager and Messrs. John Schroeder, Andy Seitz and Ed Egler a committee on arrangements. The arrangements are being completed now and the biggest ball of the season is expected.

Travelling Auditor G. W. Titus has begun the work of checking out Agent Wardell who will return to the freight house and Mr. Littell, the newly appointed agent, will be the regular agent after today when the checking has been completed.

Dr. Riddell says: "In patients who had lost the sense of smell entirely and even where the hearing has begun to be affected from catarrh, I have had fine results after only a few weeks' use of Stuart's Catarrh Tablets. I can only explain their action on the theory that the cleansing and antiseptic properties of the tablets destroy the catarrhal germs wherever found, because I have found the tablets equally valuable in catarrh of the throat and stomach as in nasal catarrh."

Dr. Estabrook says, "Stuart's Catarrh Tablets are especially useful in nasal catarrh and catarrh of the throat, clearing the membranes of mucus and speedily overcoming the hacking, coughing and expectoration."

Any sufferer from catarrh will find Stuart's Catarrh Tablets will give immediate relief, and being in tablet form and pleasant to the taste, are convenient and always ready for use, as they can be carried in the pocket and used at any time, as they contain no poisonous drugs, but only the cleansing properties of Eucalyptus bark, Guaiacol, blood root and Hydrastis.

All druggists sell the tablets at 50 cents for complete treatment.

SOCIAL NOTES.

The preparations for the U. D. C. encro to be held at the Campbell building opposite the Palmer house this evening are about completed. It promises to be one of the most elaborate ever given in Paducah and quite a social function as well, and bids fair to rival the one given by the Daughters of the Confederacy in Louisville recently. The prizes which are on exhibition in Weil's and McPherson's windows have attracted much attention. A number of tickets have been sold and the attendance will no doubt be large.

WHAT ONE WOMAN THINKS.

It is never safe to judge by appearance; who, from looking at a portrait of Cupid would ever think of attributing to him the marvelous executive ability with which he is customarily credited?

Now just imagine if the truth about everything were known by everybody, wouldn't this be an uncomfortable world to live in?

If only men would do all that women think they ought to, Eden would be regained.

There is one great crisis in almost every woman's life; happiness is who records her name on the honor roll of God's unknown heroines!

Life is always worth living to the woman who still believes in a hereafter.—Philadelphia Times.
